

MISSOURI
AIR CONSERVATION COMMISSION
BRIEFING DOCUMENT

June 24, 2004

**MISSOURI DEPARTMENT
OF NATURAL RESOURCES**

Air and Land Protection Division

Air Pollution Control Program

NOTICE OF OPEN MEETING

Persons with disabilities requiring special services or accommodations to attend the meeting can make arrangements by calling the Air Pollution Control Program directly at (573) 751-4817, the division's toll-free number at 1-800-361-4827, or by writing two weeks in advance of the meeting to: DNR, Air Conservation Commission Secretary, P. O. Box 176, Jefferson City, MO 65102. Hearing impaired persons may contact the program through Relay Missouri, 1-800-735-2966. Please visit our web site at www.dnr.mo.gov.

AGENDA

Missouri Air Conservation Commission Meeting
Governor Office Building
Room 450
200 Madison Street
Jefferson City, MO 65101
June 24, 2004
9:00 a.m.

	Page #	
A. Call to Order		Joanne Collins
B. Minutes from May 27, 2004 Approval needed	1	Joanne Collins
C. Reports - (discussion)		
1. Complaint Report	11	Steve Feeler
2. Settlement Report	31	Steve Feeler
3. Permit Reports	39	Maher Jaafari

4.	Operations Report	67	Jim Kavanaugh
5.	2003 Air Quality Summary	99	Bern Johnson
6.	Holcim Update		Randy Raymond
7.	Upcoming Projects	109	Wayne Graf
8.	Director's Report		Leanne Tippet

Kirksville, MO 63501

December 9, 2004 – Jefferson City

Governor Office Building
Room 450
200 Madison Street
Jefferson City, MO 65101

K. Discussion of Pending Litigation and Legal Matters

Tim Duggan

(This portion of the meeting may be closed, pursuant to
Section 610.021 (1), RSMo, after a vote by the
Commission.)

L. Meeting Adjournment

Joanne Collins

**Immediately following the Missouri Air Conservation Commission Meeting there
will be an Air Pollution Emission Fee Workgroup Meeting**

The purpose of this meeting is to present an Overview of Revenue and Expenditures
which provides the basis for the proposed calendar year 2004 emission fee.

MINUTES
MISSOURI AIR CONSERVATION COMMISSION
Millennium Hotel
Meramec Ball Room
200 South 4th Street
St. Louis, MO 63102
May 27, 2004
9:00 a.m.

Commissioners Present

Jack C. Baker, Member
Harriet Beard, Member
Joanne Collins, Chairman
Michael Foresman, Vice Chairman
Barry Kayes, Member
Carolyn Pufalt

Commissioners Absent

Ernie Brown, Member

Staff Members Present

Don Cripe, Operations Section, Air Pollution Control Program (APCP)
Tim Duggan, Attorney General's Office
Steve Feeler, Enforcement Section Chief, APCP
La'Rhonda Garrett, Director, St. Louis Urban Outreach Office (SLUOO)
Wayne Graf, Operations Section, APCP
Bill Hernlund, St. Louis Regional Office
Jim Kavanaugh, Operations Section Chief, APCP
Sarah McMichael, Public Information Officer, APCP
Nancy Morgan, SLUOO
Kyra Moore, Permits Section Chief, APCP
Missy Seeligman, Secretary, APCP
Leanne Tippet, Director, APCP

Others Present

Eric Brown, St. Louis City Air Pollution Control (APC)
Kathrina Donegan, St. Louis County APC
Sue Ehrhardt, St. Louis County APC
Eric Ervin, Holcim
Cheryl Hammond, Sierra Club
Dave Hart, Noranda
Joe Heilweck, St. Louis City APC
Sallie Keeney, REGFORM
Kirk Krause, Anheuser Busch, Inc.

Robert Laplace, Ameren
Jim Lunan, Holcim
Jennifer Marino, Springfield City Utilities
Jill Miller, Sierra Club
Lain Palini, St. Louis City APC
Norb Plassmeyer, Associated Industries of Missouri
Phillip Saller, St. Louis City APC
David Shanks, Boeing
Andrea Strickland, Barr Engineering
Nancy Tully, Holcim
Bob Tyler, Printing Industries of St. Louis
Steven Whitworth, Ameren
Michael Zlatic, St. Louis County Health Dept.

A. Call to Order

Chairman Joanne Collins called the May 27, 2004, meeting of the Missouri Air Conservation Commission to order at 9:00 a.m. The Commissioners introduced themselves and Chairman Collins requested that all cell phones and pagers be turned off.

B. Minutes, April 29, 2004, Meeting

Commissioner Barry Kayes suggested the following correction to the April 29, 2004 minutes. Page 3, paragraph 1, line 1, 'district' should be added and the line should read "...to the school district in the county..." Jim Kavanaugh made the following suggested correction. Page 3, paragraph 7, line 3 'renewed' should be changed to 'revised' and the line should read "...The revised report..."

Commissioner Kayes moved to approve the minutes as corrected. Commissioner Mike Foresman seconded; Commissioner Caroline Pufalt abstained from voting, remaining commissioners voted to approve the minutes as written.

C. Reports - The following referenced reports are in the May 27, 2004, Missouri Air Conservation Commission Briefing Document.

1) ENFORCEMENT

Steve Feeler referred the commission to the Complaint Report beginning on Page 11. The department received 175 complaints during April. Of those complaints, 135 investigations were completed and four Notices of Violation were issued. The bulk of these complaints were regarding odors. Large portions of the odor complaints are from the Premium Standard Farms facilities.

The program held a meeting to discuss how to address the large number of odor complaints. The meeting participants came up with four action items: regularly

scheduled inspections; sending a program environmental specialist to do inspections; grouping the complaints in the complaint report; and budgeting for sample analysis.

Chairman Collins and Commissioner Harriet Beard requested that they be contacted when inspections are conducted in their area.

Mr. Feeler next referred the commission to the Settlement Report on Page 39. The program has resolved 115 cases totaling approximately \$205,000 in penalties paid and approximately \$225,000 in suspended penalties

2) PERMITS

Kyra Moore, Permits Section Chief, referred the commission to the permit reports beginning on Page 47 with the Permit Applications Received Report. The program received 118 applications in April, 64 construction permits and 54 operating permits.

The Permit Applications Completed Report begins on Page 61. For April, the program completed 83 projects, 49 construction permits and 34 operating permits.

The Operating Permit Progress Report begins on Page 72. The program completed 2275 applications out of 2507 applications received. There have been 430 Part 70 permits completed.

3) OPERATIONS

Jim Kavanaugh referred the commission to the Rules in Progress Schedule beginning on Page 73 followed by the State Air Quality Plan Status Report on Page 75. There will be changes in the Rules in Progress Schedule report starting next month. These changes include a new column that shows when the draft rule and Regulatory Impact Report (RIR) was reported to the other departments for their review..

Chairman Collins reported that she reviewed the proposed changes and the simplification and clarification was greatly improved.

Mr. Kavanaugh reported that after the Briefing Document was published, three rules were filed with the Secretary of States Office and will be presented in July. Two of these rules are related to New Source Review requirements and the third one is the Emission Fee Rule.

Mr. Kavanaugh updated the commission on the EPA Mercury Rule proposal. EPA extended the comment period on the proposal to June 29th. At this time, the Air Program is coordinating comments with other programs within the department.

On May 11th, the EPA Administrator signed a Clean Air Non-Road Diesel Rule proposal. This has not been published in the Federal Register. This proposal is for non-road construction and agriculture equipment and is a key component of the national air quality strategy.

EPA released a supplement to the Clean Air Interstate Rule, which was previously called the Interstate Transport Rule. The supplemental proposal is allowing for a model cap and trade program that states can consider.

Mr. Kavanaugh stated that the ozone season started April 1st. Although the St. Louis area is a 1-hour ozone maintenance area, we must continue to maintain the standard. The ambient air standard for 1-hour ozone is 124 parts per billion (ppb). A monitored violation occurs when there are more than three exceedences at any one monitor over a three-year period. The Sunset Hills monitor in St. Louis currently has three exceedences over a two-year period. If a violation would occur, contingency measures in the maintenance plan will be triggered.

The EPA recently took action on the 8-hour ozone boundaries for Kansas City and St. Louis. The 8-hour ozone standard is calculated differently than the 1-hour standard. The standard is 85 ppb and it is the fourth highest reading per year at each monitor averaged over three years that determines a violation. There is one monitor in the St. Louis area that already in violation this year.

Commissioner Kayes commented that it seems early to be having yellow days and asked if this has something to do with the different ozone standard.

Sarah McMichael stated that the first yellow day was forecasted on May 20th in St. Louis; in 2003 the first yellow day was on June 6th; in 2002 the first yellow day was May 23rd; in 2001 the first yellow day was in April. It really depends on the weather and when the yellow days start varies from year to year. She stated the new standard did not change the forecasting.

4) LEGISLATIVE UPDATE

Ms. McMichael provided a legislative update to the commission. The session ended on May 14th. Only three bills that might affect the program were truly agreed to and finally passed.

- 1) HB 978, which creates the Small Business Regulatory Fairness Board was passed on May 14th. This board will work with agencies and small businesses on issues concerning the impact of an agency's rules and regulations on small businesses.
- 2) HB 980, which requires that regulatory impact report, was passed on May 14th.
- 3) HB 996 was amended to include language that was first proposed in Sen. Goode's SB 900 to provide an exemption to vehicle emissions testing for vehicles 26 six years older or more than the current model year. This bill was passed on May 10th.

The other bills Ms. McMichael has presented to the commission during the 2004 legislative the session did not pass.

5) HOLCIM UPDATE

Ms. Moore gave an update on the Holcim permit. At this time, there is not a final permit. The permit is in the final stages of legal and management review. The program anticipates a final permit in the next several days. Ms. Moore summarized the permit process to date. A public hearing was held and the public comment period ended on March 29th. The program received approximately 2,000 comments. The final permit includes a response to comments document that details the comment received, our response and the change to the permit that occurred, if any, due to that comment. The final permit will be available on our website.

6) MERCURY UPDATE

Donald Cripe presented an update on EPA's Proposed Mercury Emission Rules. The update begins on Page 101 of the May Briefing Document.

Commissioner Kayes asked if there was any data on what mercury tolerance is in individuals. Commissioner Foresman stated that there is a large amount of data out on the web. Mr. Cripe stated he could put something together.

Commissioner Jack Baker stated that the United States has a lot of coal. The power plants went to natural gas for less pollution. Unfortunately the natural gas is running low and our only surplus is coal. Commissioner Baker asked if the nation could get enough mercury reductions from the coal plants. Mr. Cripe stated that there are two permits that have been issued, one in Wisconsin and one in Iowa. They are requiring a mercury reduction of 84 percent. The states were

able to apply a case by case MACT determination. There is a lot of technology with carbon absorption that absorbs the elemental mercury from the exhaust gas.

Commissioner Baker stated that Kansas City Power and Light (KCPL) is applying for a permit. It was asked what KCPL would have to do if they can not make the regulations now. Mr. Cripe stated that he had not seen the permit application at this time.

Commissioner Beard asked how current is the list of companies from his presentation. Mr. Cripe stated that the table was taken from the EPA's e-grid site and it was dated 2001.

Chairman Collins asked if staff could set up a tour of a power plant that would be close to one of the future commission meetings.

7) DIRECTOR'S REPORT

Leanne Tippet followed up on Commissioner Baker's question on KCPL. Ms. Tippet noted that KCPL is having some trouble meeting a limit at this time, but it is related to NO_x instead of mercury. The department has been working very closely with KCPL, the Kansas City local agency and EPA and is very hopeful that the facility will meet the limit by June.

Air Advisory Forum

The Air Advisory Forum is working on MoEIS user issues. The next meeting will be June 24th, 1:00 p.m. at a location to be announced.

8-Hour Implementation

A meeting will be held on June 2nd, 10:00 a.m. at the St. Louis Urban Outreach Office with the stakeholder workgroup.

HB 1181

This bill was proposed by Rep. Selby to discontinue the Inspection and Maintenance (I/M) program. A substitute bill was proposed by Rep. Lembke that changed the original bill a little, but still discontinued the program in its current form. Rep. Lembke, Ted Heisel of the Missouri Coalition for the Environment and Ms. Tippet did a call in show on NPR. Rep. Lembke did recognize that there should be some sort of emissions inspection Program. He expressed that there could be some improvements made to the program. Ms. Tippet stated that the I/M program is willing to work with him to make the program more customer friendly with out losing the air quality benefits.

D. Unfinished Business

None

E. Public Hearing

None

F. Recommended for Adoption or Actions to be Voted on

None

G. New Business

Core Commissioners Workgroup Update

At the last meeting, on April 30th, the workgroup adopted the Board and Commission Operating Policies and worked on the draft procedure for Rules and Requests for Hearings. There will be a final document for the Rules and Requests for Hearings possibly by the end of July. There may be one more meeting to adopt the final drafts as they are pulled together.

Attorney Generals Office Referral Requests

Mr. Feeler presented a referral request for Lakeside Shopping Center LLC and Pair Dice Construction if negotiations for a settlement agreement are not finalized. Information on the proposed referral begins on Page 91 of the briefing document. Commissioner Foresman moved to refer Lakeside Shopping Center LLC and Pair Dice Construction to the Attorney General's Office at the discretion of the agency if a settlement can not be reached prior to October. Commissioner Beard seconded the motion. Commissioner Caroline Pufalt abstained from voting, remaining commissioners voted for referral to the Attorney General's Office.

Mr. Feeler presented a referral request for Jane Hale, Jane Hales Trust/Hale Enterprises. Information on the proposed referral begins on Page 95 of the briefing document. Commissioner Kayes moved to refer Jane Hale, Jane Hales Trust/Hale Enterprises to the Attorney General's Office for resolution. Commissioner Foresman seconded the motion. Commissioner Caroline Pufalt abstained from voting, remaining commissioners voted for referral to the Attorney General's Office.

Mr. Feeler presented a referral request for Dial Cleaners. Information on the proposed referral begins on Page 99 of the briefing document. Commissioner Baker moved to

refer Dial Cleaners to the Attorney General's Office for resolution. Commissioner Foresman seconded the motion. Commissioner Caroline Pufalt abstained from voting, remaining commissioners voted for referral to the Attorney General's Office.

H. Appeals and Variance Requests

None

I. Open Session

Jill Miller of the Sierra Club addressed the commission concerning the threat to St. Louis air quality posed by several new pollution sources south of St. Louis. Holcim, Peabody Power Plant, and the expansion of the Baldwin Power Plant.

Peabody Corporation is proposing to build a facility in Washington County, Illinois. This means there will be four large air pollution sources in a ring southeast of St. Louis approximately 50 miles from downtown. The new Peabody Plant combined with the proposed Holcim Plant and the existing sources would cause problems in St. Louis.

The Asthma and Allergy Foundation of America ranked St. Louis as third worst in the nation for asthma. The American Lung Association has given St. Louis counties failing grades for elevated ozone levels. On April 15th, the EPA declared eight St. Louis area counties to be in non-attainment under the 8-hour ozone standard.

Peabody's 1,500 megawatt coal burning power plant would dump 25,000 tons of harmful pollutants in the air annually. They are also proposing to emit 280 pounds of mercury per year.

In March, several residents turned out to testify at an Illinois EPA hearing in Marisa about the Peabody facility. St. Louis residents, Sierra Club representatives, the American Lung Association, the Clean Air Task Force, American Bottom Conservancy, and Health and Environmental Justice St. Louis spoke in opposition to the proposal.

The Air Pollution Control Program has issued a draft construction permit for the proposed Holcim facility, and Sierra Club believes this was done without considering the combined impact of the Peabody proposal and the Baldwin expansion. Ms. Miller urged the commission to insist that the combined effects of all the sources be carefully considered before it approves a permit for Holcim or any other new large source in St. Louis.

The Sierra Club believes that it would be reasonable to ask the staff to rework the Holcim permit with more stringent emission controls in light of these developments.

Commissioner Kayes asked Ms. Tippet to keep the commission informed of the Peabody proposal. Ms. Tippet agreed and asked to clarify the process of the permit issuance. The commission does not get involved in a permitting decision until and unless the final permit is appealed within 30 days of issuance.

J. Future Meeting Dates

June 24, 2004 – Jefferson City

Governor Office Building
Room 450
200 Madison Street
Jefferson City, MO 65101

July 22, 2004 – Cape Girardeau

Drury Lodge
Lincoln Room
104 S. Vantage
Cape Girardeau, MO 63701

August 26, 2004 – Jefferson City

Governor Office Building
Room 450
200 Madison Street
Jefferson City, MO 65101

September 30, 2004 – Kansas City

Holiday Inn Sports Complex
1st Base Conference Room
4011 Blue Ridge Cutoff
Kansas City, MO 64133

October 28, 2004 - Kirksville

Days Inn

Highway 63 South
Kirksville, MO 63501

December 9, 2004 – Jefferson City

Governor Office Building
Room 450
200 Madison Street
Jefferson City, MO 65101

K. Discussion of Pending Litigation and Legal Matters

Tim Duggan stated that arguments would be heard concerning Sierra Club vs. EPA on June 1st. This is a case that challenges EPA's redesignation of St. Louis as in attainment of the 1-hour ozone standard.

Commissioner Foresman moved to go into closed session. Commissioner Beard seconded the motion. Commissioner Caroline Pufalt abstained from voting, remaining commissioners voted to go into closed session.

Commissioner Kayes moved to go back into open session. Commissioner Beard seconded the motion. Commissioner Caroline Pufalt abstained from voting, remaining commissioners voted to go back into open session.

L. Missouri Air Conservation Commission

Chairman Collins adjourned the May 27, 2004, Missouri Air Conservation Commission meeting.

Respectfully submitted,

Leanne Tippet Mosby, Director
Air Pollution Control Program

Approved:

Comp. No.	NE9860	Comp. Info	A family in Novinger is piling trash on their property, which has been brought from the Richard Lewis and Clara Stewart property in Novinger. The complainant is concerned they are going to burn it. The burn area cannot be seen from the street. It has brush piled with it. The trash is either from a burned house or a small building behind the burned house.

Comments									
Comp. No.	NE9782	Comp. Info	On May 1, 2004, at 5:45 p.m., the complainant states the reported party is illegally burning lumber and hydrocarbon based materials. The Environmental Emergency Response (EER) requested the local police investigate the report. Officer Williams relayed that a fire was occurring, which contained lumber and other demolition materials. White smoke was reported at the time of the investigation. However, hydrocarbon-based materials were reported burning by the property owner the previous night (4/30/04), which resulted in a thick black smoke.

Comments									
Comp. No.	NE9865	Comp. Info	Last night, a residential structure was being burned in Renick. It created a lot of black smoke. The person demolishing the house for the owner has been burning a little at a time, but last night set the whole remaining structure on fire. The Southeast Randolph Fire Department was contacted to extinguish the fire. The owner is believed to be the person with the restaurant next door. Shingles are still on the ground around the property.

Comments	No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the 1 to 2 day advance notice required by the lab prior to analysis of air samples.								
Comp. No.	NE9872	Comp. Info	The complainant would like to file an odor complaint on the Premium Standard Farms' Whitetail Site. The odor has been with them since early this morning and has been in and out all day. This morning it was a strong hog manure smell then this evening it turned to a strong lagoon/hog manure smell. The wind has been out of the east southeast and cloudy, warm and damp.

SERO	5/5/2004	4/7/2004	JERRY LAUGHLIN	Waynesville	Pulaski	Burning	Doug Yurecko, Fire Chief	DRL	
Comments	Several attempts to contact the fire chief have failed. Calls were made the next day after the call came to SERO, and a drive by the station in Waynesville was unsuccessful. Will continue to try to contact the fire department for a copy of the fire report.								
Comp. No.	SE3531	Comp. Info	Burning a large pile of construction debris.						
SERO	5/11/2004	5/10/2004	DOYLE CONNOR/LARRY MCGEE	Eminence	Shannon	Other	Anonymous	GAG	
Comments	On May 10, 2004, contacted the Shannon County Sheriff's office at (573) 226-3615, and requested their help in responding to reports of burning at night. They said they would try to respond. No further action at present.								
Comp. No.	SE3658	Comp. Info	Complainant reports two men in Eminence are picking up tires and oil from the service station and dumping and burning the waste at night for money.						
SERO	5/12/2004	4/28/2004	KELLY GOBEL	Rolla	Phelps	Other	Jesse & Evelyn Hayes	WS	
Comments	No air violation observed at the time of investigation, but the potential is high for a violation. A NOV was previously issued by SERO/WPCP Unit for failure to obtain a land disturbance operating permit and a second NOV is about to be issued for failure to correct the prior deficiencies. Recommend that seeding for vegetative ground cover and or periodic water application (sprinklers) be used to control fugitive dust. The Air Unit will include language in SERO'S second NOV so measures are taken to insure that particulate matter does not enter the ambient air and travel beyond the premises of origin.								
Comp. No.	SE3617	Comp. Info	Complainant reports that every spring Ms. Gobel sells truckloads of topsoil. This goes on for several weeks. The dust from hauling the topsoil is so bad, it affects their breathing. Her husband has chronic asthma and is under a physician's care.

<i>Region</i>	<i>Inspection Date</i>	<i>Date Received</i>	<i>Suspected Source Owner/Operator</i>	<i>City</i>	<i>County Name</i>	<i>Type of Complaint</i>	<i>Complainant</i>	<i>Inspector Initials</i>	<i>NOV</i>
SERO	5/19/2004	5/4/2004	VIVIAN & RUSSELL LEE	Iron Mountain	St. Francois	Bypassing	Anonymous	TM	
Comments	Conditions are as complainant described. Visited city hall and spoke with clerk. I informed the clerk the city should enforce the sewer use ordinance. She told me that Ms. Lee had been issued a ticket and was to appear in court on July 8, 2004. I recommended the city form an agreement with the Pilot Knob Rural Water District to shut off the water of residents who get behind on their sewer fees.								
Comp. No.	SE3641	Comp. Info	Complainant reports the reported party has had their water and sewer shut off for over a year for non-payment. Since then, there is raw sewage all over the ground at the reported party's residence and they are hauling in drinking water. This sewage is draining onto nearby properties. The smell is horrible and complainant believes this is a health hazard to the children at the reported party's residence and for the Iron Mountain Lake Community, not to mention the threat of mosquitoes and the West Nile Virus, etc.						
SERO	5/20/2004	4/16/2004	MOTORCROSS	Potosi	Washington	Fugitive Dust/Burning	Melody Boyer	AW	
Comments	Spoke with owner, Mr. Rudolph. He has been constructing a track. In the process of putting sawdust down and wetting to stop any dust, very little motorcross riding going on. Complainant worried about noise. Noise not addressed by the department. Burned brush pile. Recommended that if dust becomes an issue to contact the department.								
Comp. No.	SE3572	Comp. Info	Motorcross facility cleared approximately 20 acres to build a track, the track is very dusty and loud.						
SERO	5/27/2004	5/24/2004	PSWD #2 ROLLA	Rolla	Phelps	Fugitive Dust/Particulate	Anonymous	WS	
Comments	The same contractor abated this water tower in 2001 to bare metal using containment for lead base paint and repainted tower with non-lead epoxy paint. On May 24, 2004, the contractor spot sandblasted certain weathered areas of the tower in preparation for repainting those areas. At the time of the investigation the contractor was applying Tenemc Series 20, 66 and 73 mixture (non-lead epoxy paint) by roller application. Rain on May 25, and May 26, 2004, halted all activity at the tower and removed any evidence of fugitive dust from surfaces beyond the premises of origin. Therefore, no 10 CSR 10-6.170 violation could be validated. No violations observed. The contractor was reminded that protective curtains may be necessary for containment of particulates on smaller size properties to preclude particulates from exiting the premises of origin for future projects.								
Comp. No.	SE3701	Comp. Info	Complainant states there is a firm that is sandblasting PSWD # 2 Rolla's water tower and the sand is getting everywhere. It is on the cars and makes it very hard for the complainant to breath.						
SERO	5/28/2004	5/24/2004	MR. FLOWERS	Vulcan	Iron	Odors/Other	Angie Kaempfe	AW	
Comments	Have been to site numerous times. No violation noted any time. The U.S. Environmental Protection Agency (EPA) was also at the site the last time. No problem was foreseen. A lot of ties (approximately 80,000 plus). There are odors, but drippage was not noted. Spoke to Angie and Jason Kaempfe. Explained we had been at site. No violations were observed. Referred to Steve Feeler. Complainant feels we are making excuses for Mr. Flowers.								
Comp. No.	SE3703	Comp. Info	100 to 200 bundles of railroad ties in yard across the street. The air is polluted with the smell of creosote. Complainant believes it is in the water as well.						
SLRO	5/12/2004	5/12/2004	FRED WEBER QUARRY	St. Louis	St. Louis	Fugitive Dust	John Switzer	KJA	
Comments	No further action necessary by the MDNR/SLRO.								
Comp. No.	SL031106	Comp. Info	Complainant alleges severe dust emissions from quarry operation. A portion of problem deals with dust being deposited on a public roadway in front of the facility.

<i>Comments</i>	No violation. Rural area burning vegetation material. Drove by the area, but didn't even find a dairy nearby. Attempted to contact the complainant but the phone number was a business and not Mr. Keith's (wrong number).								
<i>Comp. No.</i>	SW5312	<i>Comp. Info</i>	The reported party operates a dairy. Complainant said he was burning hay all night. Complainant insistent to know the outcome of investigation, even if there is nothing the department can do.						
SWRO	5/20/2004	5/17/2004	DAVE THOMAS	Kimberling City	Taney	Other	Anonymous	DL	
<i>Comments</i>	Dan Leyland spoke with Dave Thomas, owner of automotive service center, on May 20, 2004, and informed him the department had an inquiry regarding burning and a large hole dug behind the shop. No burning had occurred recently. The large hole is actually some kind of burrow. No dumping and or covering up of waste in pit. Observed on May 20, 2004. Trash service used. No burning occurring. Burning ceased 6 weeks ago. Waste oil has been picked up by Safety Clean. However, there were a lot of containers (30 gallons or more each). One is a 55 gallon barrel mostly full. Also, a 25 gallon container. Container contains waste oil located on property. Summary of the total containers is 10. Total gallons approximately 300+ on site. Conclusion: Dan Leyland contacted Dave Thomas on May 11, 2004, (follow-up call) and was informed all waste oil will be properly managed. The oil will be collected on Tuesday, May 25, 2004, by a licensed transporter from Arkansas. Receipts will be kept and sent to SWRO. Also, a 200 gallon tank may be purchased to keep oil for oil heater mishap. A small secondary container may be constructed to contain any spills from 200 gallon tank. Pending.								
<i>Comp. No.</i>	SW5334	<i>Comp. Info</i>	Hole dug in back of shop. The reported party maybe preparing to bury waste. Possibly burning waste.

RULE AND SIP AGENDA

June 24, 2004
Jefferson City, MO

ACTIONS FOR PUBLIC HEARING:

(None Scheduled)

ACTIONS TO BE VOTED ON:

(None Scheduled)

July 22, 2004
Cape Girardeau, MO

ACTIONS FOR PUBLIC HEARING

- * 10 CSR 10-6.060 (amendment) Construction Permits Required

This proposed amendment would adopt the provisions of the New Source Review final rules published in the December 31, 2002, *Federal Register* for attainment and unclassified area permits and amend language that exempts electric utility steam generating units from hazardous air pollutant permit requirements.

- * 10 CSR 10-6.410 (amendment) Emissions Banking and Trading

This proposed amendment would prohibit the generation of emission reduction credits from pollution control projects (PCPs) that utilize the PCP exclusion to avoid New Source Review requirements.

- * 10 CSR 10-6.110 (amendment) Submission of Emission Data, Emission Fees and Process Information

This proposed amendment will establish the emission fee for Missouri facilities as required annually by 643.070 and 643.079, RSMo. The air emission fee for calendar year 2004 is proposed to be decreased to \$33.00 per ton of regulated air pollutant. Also, this proposed amendment will remove processes for requesting additional fees and emission fee refunds since these processes are handled administratively and there is no statutory authority for these requirements.

ACTIONS TO BE VOTED ON:

(None Scheduled)

August 26, 2004
Jefferson City, MO

State Air Quality Plans Status Report

June 8, 2004

Plan Commitment	Plan Submitted to EPA *	EPA's Plan Completion Finding *	EPA's Plan Approval Finding *	Sanction Clock Date **		Sanctions				Comments
						EPA Impose 2:1 Emissions Offset Ratio (18 mos after clock start)		EPA Withholds Highway Funds (24 mos after clock start)		
				Start	Stop	Start	Stop	Start	Stop	
Missouri SIP (St. Louis 15% Rate of Progress Plan)				1/14/94	7/13/95					
	1/13/95 7/11/95 7/11/95	All three submittals together found complete 7/13/95	EPA proposed partial approval of all elements of plan except I/M program 3/18/96. EPA proposed partial disapproval due to failure to implement enhanced I/M program 3/18/96.	Sanction clock will start if EPA publishes limited disapproval of 15% plan						
	5/1/97		N/A (This action only addresses approvability)						Plan revised to clarify RVP waiver demonstration.	
	11/12/99		Complete-12/22/99	Approved-5/18/00					Plan revised to include I/M and RFG provisions.	
	Missouri SIP (St. Louis Contingency Plan)	10/6/97	Complete-10/8/97	4/19/01-EPA proposed approval Approved-6/26/01	4/11/96	10/8/97				
Missouri SIP (St. Louis Attainment Demonstration Plan)				6/22/95	4/22/96					
	10/25/95 11/12/99	Complete-4/22/96 Complete-12/22/99	4/17/00-EPA proposed approval On 8/3/00, EPA reopened public comment period until 8/14/00							Plan will be revised to comply with the new ozone standard and transport SIP call. MACC adopted 11/8/99. On 1/19/00, DNR submitted a supplemental model report. Additional modeling submitted on 6/29/00. Presented supplemental model report to MACC at 8/31/00 public hearing. MACC adopted 9/21/00.
	11/2/00 2/28/01		4/3/01-EPA proposed approval Approved-6/26/01 (Court vacated)							On 6/26/01, EPA withdrew 3/19/01 attainment determination and approved attainment date extension to 11/15/04 and mobile source emissions budgets. On 11/25/02, U.S. 7th Circuit Court of Appeals ruled against EPA as follows: 1) EPA has no authority to grant attainment date extension; 2) 6/26/01 rule extending St. Louis attainment date vacated; and 3) directed EPA to promulgate final rule classifying St. Louis as a serious ozone nonattainment area.
	12/13/02		EPA proposed to approve revised mobile budgets 1/30/03 Approved-5/12/03							Mobile 6 model released 1/29/02. Presented revised mobile budgets based on Mobile 6 model to MACC at 10/23 and 10/24/02 public hearing. MACC adopted 12/5/02.
	Missouri SIP (Emission Statement Plan)	1/4/94	Complete-6/17/94	Approved-2/29/96	1/15/93	6/17/94				

**State Air Quality Plans Status Report
June 8, 2004**

Plan Commitment	Plan Submitted to EPA *	EPA's Plan Completion Finding *	EPA's Plan Approval Finding *	Sanction Clock Date **		Sanctions				Comments
				EPA Impose 2:1 Emissions Offset Ratio (18 mos after clock start)	EPA Withholds Highway Funds (24 mos after clock start)					
				Start	Stop	Start	Stop	Start	Stop	
Missouri SIP (Redesignation Demonstration and Maintenance Plan For Missouri Portion of St. Louis Ozone Nonattainment Area)	12/5/02	12/19/02	EPA proposed approval of redesignation demonstration and maintenance plan 1/30/03. Approved-5/12/03							Presented plan and redesignation request to MACC at public hearing 10/23/02 in St. Louis and 10/24/02 in Kirksville. MACC adopted 12/5/02.
Missouri SIP (St. Louis 8 Hour Ozone Plan)	8/1/03									In 2000, DNR submitted recommendation on 8 hour nonattainment boundaries. On 6/2/03, EPA published a proposed rule to implement the 8-hour Ozone NAAQS. MACC adopted boundary recommendation 7/24/03. On 12/4/03, received EPA letter stating their intent to modify boundary recommendation to include Ste. Genevieve County. On 2/5/04, DNR sent letter to EPA confirming the state's original recommendation not including Ste. Genevieve County. On 4/15/04, EPA designated St. Louis metropolitan area as Moderate nonattainment under 8-hour ozone standard.
Missouri SIP (St. Louis CO Maintenance Plan)	6/13/97	Complete-7/9/97	1/26/99-EPA granted direct final approval-effective 3/29/99	No sanction clock applicable to nonclassifiable nonattainment areas.						
Missouri SIP (I/M Plan)				1/15/93	9/1/94					
	9/1/94 (Temporary rule)	Complete-9/1/94 (Contingent on Plan revision submittal of permanent rule)	EPA proposed disapproval of I/M Plan 3/18/96 due to lack of adequate resources to implement Approved-5/18/00	Sanction clock will start if EPA publishes final disapproval						A contract was awarded on 2/24/99 and testing began 4/5/00. Over 3,321,572 vehicles have been tested since the start of the program. In 2003, General Assembly did not renew appropriations for additional I/M station in South County.
	7/11/95 (Permanent rule)									
	12/9/02	12/30/02	5/12/03-EPA approved I/M rule revisions-effective 5/12/03						MACC adopted proposal for implementing OBD 4/25/02. Public hearing for rule to implement OBD 7/25/02. MACC adopted rule to implement OBD 8/29/02.	
	10/2/03	12/1/03							Plan being revised to incorporate recent rule and legislative changes. Public hearing for plan revision 7/24/03. MACC adopted 8/28/03.	
Missouri SIP (New Source Review Plan)	4/6/94	Complete-6/17/94	Approved-2/29/96	1/15/93	6/17/94					
Missouri SIP (St. Joseph Light & Power SO2 Attainment Plan)	7/13/01	Complete-8/15/01	11/15/01-EPA granted direct final approval-effective 1/14/02							Consent agreement between St. Joseph Light & Power and the state to avoid SO2 nonattainment designation has been signed by all parties as of 5/25/01. Public hearing for consent agreement 2/6/01. MACC adopted 3/29/01.

State Air Quality Plans Status Report

June 8, 2004

Plan Commitment	Plan Submitted to EPA *	EPA's Plan Completion Finding *	EPA's Plan Approval Finding *	Sanction Clock Date **		Sanctions				Comments
						EPA Impose 2:1 Emissions Offset Ratio (18 mos after clock start)		EPA Withholds Highway Funds (24 mos after clock start)		
				Start	Stop	Start	Stop	Start	Stop	
Missouri SIP (Springfield City Utilities SO2 Consent Agreement)	1/2/02	Complete-2/1/02	3/25/02-EPA granted direct final approval-effective 5/24/02							Adding consent agreement to incorporate Springfield City Utilities SO2 control strategy. MACC adopted 12/6/01.
Missouri SIP (St. Louis Transportation Conformity Plan and Rule)	2/14/95	Complete-5/16/95	Approved-2/29/96							Original Plan
										Program is working on a plan revision to incorporate six federal transportation conformity rule amendments in one plan revision. Four of the six federal rule amendments are adopted into state rules. Public hearing for fourth set of federal rule amendments 4/24/03. MACC adopted 5/29/03. EPA published fifth set of federal rule amendments 6/30/03. EPA published sixth set of federal rule amendments 11/5/03.
Missouri SIP (Kansas City Transportation Conformity Plan and Rule)	2/14/95	Complete-5/16/95	Approved-2/29/96							Original Plan
										Program is working on a plan revision to incorporate six federal transportation conformity rule amendments in one plan revision. Four of the six federal rule amendments are adopted into state rules. Public hearing for fourth set of federal rule amendments 4/24/03. MACC adopted 5/29/03. EPA published fifth set of federal rule amendments 6/30/03. EPA published sixth set of federal rule amendments 11/5/03.
Missouri SIP (General Conformity Plan and Rule)	2/14/95	Complete-5/16/95	Conditional approval 3/11/96 with 6,300 revisions							Rule effective date is 9/30/96.
	11/20/96	Complete-2/24/97	Approved-7/14/97							
Missouri SIP (NOx RACT Plan)				7/6/94	7/3/96	1/6/96	7/3/96			
	11/30/95 (Waiver)									Submitted waiver application for sect. 182(f) of CAAA 11/30/95. EPA issued transport SIP call on 10/10/97.
	4/26/96 (Draft NOx RACT Plan) 7/1/96 (Final NOx RACT Plan)	Complete-7/3/96								A NOx RACT Plan that identifies NOx RACT as the NOx limitations required for utility boilers under Title IV acid rain program is being submitted. Public hearing for proposed plan 5/30/96. MACC adopted Plan 6/27/96.
	11/12/99	Complete-12/22/99	Approved-5/18/00							Incorporates new NOx RACT rule.
Missouri SIP (NOx Transport Plan)										On 3/3/00, court ruled on NOx SIP call petitions and removed Missouri from NOx SIP call. On 8/30/00, U.S. Court of Appeals extended compliance dates for NOx SIP call states to 5/31/04. Received 9 applications for early reduction credits. EPA approved statewide NOx rule 12/28/00. Proposed NOx SIP call for Missouri released 2/23/02. Comments submitted to EPA 4/29/02. On 4/1/04, EPA finalized Phase II of NOx SIP call. Missouri to submit SIP meeting full NOx SIP call by 4/1/05.

State Air Quality Plans Status Report

June 8, 2004

Plan Commitment	Plan Submitted to EPA *	EPA's Plan Completion Finding *	EPA's Plan Approval Finding *	Sanction Clock Date **		Sanctions				Comments
						EPA Impose 2:1 Emissions Offset Ratio (18 mos after clock start)		EPA Withholds Highway Funds (24 mos after clock start)		
				Start	Stop	Start	Stop	Start	Stop	
Missouri SIP (Kansas City 8 Hour Ozone Plan)	8/1/03									In 2000, DNR submitted recommendation on 8 hour nonattainment boundaries. On 6/2/03, EPA published a proposed rule to implement the 8-hour Ozone NAAQS. MACC adopted boundary recommendation 7/24/03. On 12/12/03, received EPA letter providing state an opportunity to modify the boundary recommendation to attainment or provide comments on EPA's intended boundaries if the designation remains nonattainment. On 2/5/04, DNR sent letter to EPA modifying the state's recommendation to request that the Kansas City area be designated as in attainment for the 8-hour standard. On 4/15/04, EPA designated Kansas City metropolitan area as Unclassifiable for 8-hour ozone standard with a determination to be made at end of 2004 ozone season.
Missouri SIP (Kansas City Maintenance Plan)										On 2/5/96 received EPA formal notice of ozone violation (based on EPA quality assured data) in the Kansas City metropolitan area which requires contingency measures. Contingency measure recommendation presented at 8/29/96 MACC meeting.
	3/16/98	Complete-5/21/98	1/26/99-EPA granted approval (RFG incorporated by 2000) Approved-4/24/02							MACC adopted revised Plan 2/3/98. U.S. Court of Appeals struck down EPA's rule for use of RFG in former nonattainment areas. On 8/22/00, Missouri governor committed to implement 7.0 RVP gasoline, a cold cleaning solvent regulation and a pressure vacuum relief valve requirement for gasoline dispensing. Submitted RVP rule and fuel waiver to EPA on 5/21/01.
	12/12/02	Complete-12/30/02	9/16/03-EPA proposed approval Approved-1/13/04							Mobile 6 model released 1/29/02. MACC adopted subsequent 10 year plan 7/25/02. MACC adopted revised mobile budgets 12/5/02. On 4/13/03, EPA advised that they would send a letter to clarify commitments required of state. On 6/5/03, EPA informed public that revised motor vehicle emission budgets are adequate for conformity purposes.
Title V Operating Permit Plan (Although not a SIP, has similar requirements and impacts)				11/15/93	3/2/95					
	1/13/95	Complete-3/2/95	4/11/96-EPA granted final interim approval of operating permit program Approved-5/14/97							Operating Permit Program effective date is 5/13/96. Full approval effective 6/13/97.
	5/6/03	Complete-5/22/03	9/17/03-EPA granted direct final approval-effective 11/17/03							On 3/25/02, EPA issued Notice of Deficiency for the Operating Permit Program because some state requirements do not comply with CAA and 40 CFR 70 requirements. MACC adopted plan revision and rule change on 12/5/02.
										Program is working on a plan revision to streamline the Basic and Intermediate Operating Permits to minimize the workload for both industry and program staff while maintaining ambient air quality standards. As result of stakeholder review, a rule variance was approved by MACC and rule amendments being developed to implement operating permit program streamlining.

State Air Quality Plans Status Report

June 8, 2004

Plan Commitment	Plan Submitted to EPA *	EPA's Plan Completion Finding *	EPA's Plan Approval Finding *	Sanction Clock Date **		Sanctions				Comments
				EPA Impose 2:1 Emissions Offset Ratio (18 mos after clock start)	EPA Withholds Highway Funds (24 mos after clock start)					
				Start	Stop	Start	Stop	Start	Stop	
Missouri SIP (Small Business Stationary Source Technical and Environmental Compliance Assistance Program)	3/10/93	Complete-5/11/93	Approved-3/10/93							This program is being implemented and operated by the DEQ Technical Assistance Program (TAP). All vacant appointments have been filled.
Missouri SIP (Glover Lead Plan - Doe Run/ formerly ASARCO)	8/13/96	Complete-9/18/96	Approved-5/5/97	8/2/93	9/18/96	2/2/95	9/18/96	8/2/95	9/18/96	Air quality monitoring data continues to show lead standard attainment after controls installed. Amended consent decree was filed in Sept' 99.
	7/31/00	Complete-9/5/00	12/5/01-EPA proposed approval. Approved-4/16/02							Plan being revised to change ownership via new consent decree. MACC adopted plan revision 5/25/00.
	1/26/04									Presented maintenance plan and redesignation request to MACC at public hearing 9/25/03. MACC adopted 10/30/03. On 12/1/03, Glover smelter ceased operations with plans to reopen in future. DNR advised that certain emission compliance and reporting requirements of maintenance plan could be discontinued until plant is restarted. DNR monitoring will be discontinued at the end of June 2004 but the ability to restart monitoring with sufficient lead time will be retained should the plant begin smelting again.
Missouri SIP (Doe Run Resource Recycling Division Lead Plan)				1/4/94	12/15/94					
	7/2/93 6/30/94 11/23/94	All three submittals together found complete 12/15/94	All three submittals together approved 8/4/95							Eight continuous quarters of lead standard attainment.
	5/12/00	Complete-8/2/00	10/18/00-EPA granted direct final approval-effective 12/18/00							Facility now referred to as Doe Run Resource Recycling Division and is located near Bixby, MO.
	4/29/03	Complete-8/13/03								Plan being revised to update emission limits to reflect current operation of facility. Public hearing for plan revision and rule change 10/24/02. MACC adopted 12/5/02.
Missouri SIP (Herculaneum Lead Plan - Doe Run)				1/4/94	12/15/94					
	6/3/91 7/2/93 6/30/94 11/23/94	Complete-7/9/91 Complete-9/30/93 Complete-2/23/94 Complete-12/15/94	Limited approval 3/6/92 Full approval on all 4 submittals together on 5/5/95							Area failed to attain lead standard 3rd quarter 1995. All contingency measures were implemented and still failed to attain lead standard.
	1/9/01	Complete-1/18/01	12/5/01-EPA proposed approval. Approved-4/16/02	7/28/99	1/18/01					MACC adopted plan revision and lead rule 12/7/00 and court signed consent judgement on 1/5/01. For 1st quarter 2004, Broad Street monitor measured 1.20 ug/m3.

State Air Quality Plans Status Report

June 8, 2004

Plan Commitment	Plan Submitted to EPA *	EPA's Plan Completion Finding *	EPA's Plan Approval Finding *	Sanction Clock Date **		Sanctions				Comments
						EPA Impose 2:1 Emissions Offset Ratio (18 mos after clock start)		EPA Withholds Highway Funds (24 mos after clock start)		
				Start	Stop	Start	Stop	Start	Stop	
Missouri SIP (Update outdated local codes/ ordinances)	3/12/97	Complete-4/24/97	4/22/98-EPA granted direct final approval-effective 6/22/98	Sanction clock not applicable.						Required to comply with Title V Program.
	12/22/98	Complete-4/14/99	12/22/99-EPA granted direct final approval-effective 2/22/00							Updated Kansas City local incinerator codes.
	5/22/00	Complete-6/15/00	10/26/00-EPA granted direct final approval-effective 12/26/00							Revised to reflect new St. Louis City ordinance 64749.
	10/15/03	11/6/03	12/9/03-EPA granted direct final approval-effective 2/9/04							Plan being revised to reflect new St. Louis City ordinance 65645. Public hearing for plan revision 7/24/03. MACC adopted 8/28/03.
Missouri SIP (Revised NAAQS Plan)										<u>Ozone</u> Section 110 Plan commitment letter submitted to EPA 11/30/98. Continuing to monitor 8 hour ozone standard. Preparing list of affected rules for EPA. On 7/11/00, DNR sent letter to EPA recommending Kansas City and St. Louis be designated nonattainment for 8 hour ozone standard. On 2/27/01, U.S. Supreme Court upheld revised NAAQS. On 3/26/02, U.S. Appeals Court, D.C. Circuit upheld revised NAAQS. On 6/2/03, EPA published a proposed rule to implement the 8-hour Ozone NAAQS. On 4/30/04, EPA published Phase I of 8-hour ozone NAAQS implementation rule with Phase II to be published in next several months.
										<u>PM_{2.5}</u> Section 110 Plan commitment letter submitted to EPA 11/30/98. Continuing to monitor PM _{2.5} . Preparing list of affected rules for EPA. On 2/27/01, U.S. Supreme Court upheld revised NAAQS. On 3/26/02, U.S. Appeals Court, D.C. Circuit upheld revised NAAQS. EPA developing implementation plan.
										<u>PM₁₀</u> Area designation recommendation letter due to EPA by 7/17/98 was submitted 8/12/98. Section 110 Plan commitment letter submitted to EPA 11/30/98. Preparing list of affected rules for EPA. On 2/27/01, U.S. Supreme Court upheld revised NAAQS. On 3/26/02, U.S. Appeals Court, D.C. Circuit upheld revised NAAQS. EPA developing implementation plan.

State Air Quality Plans Status Report

June 8, 2004

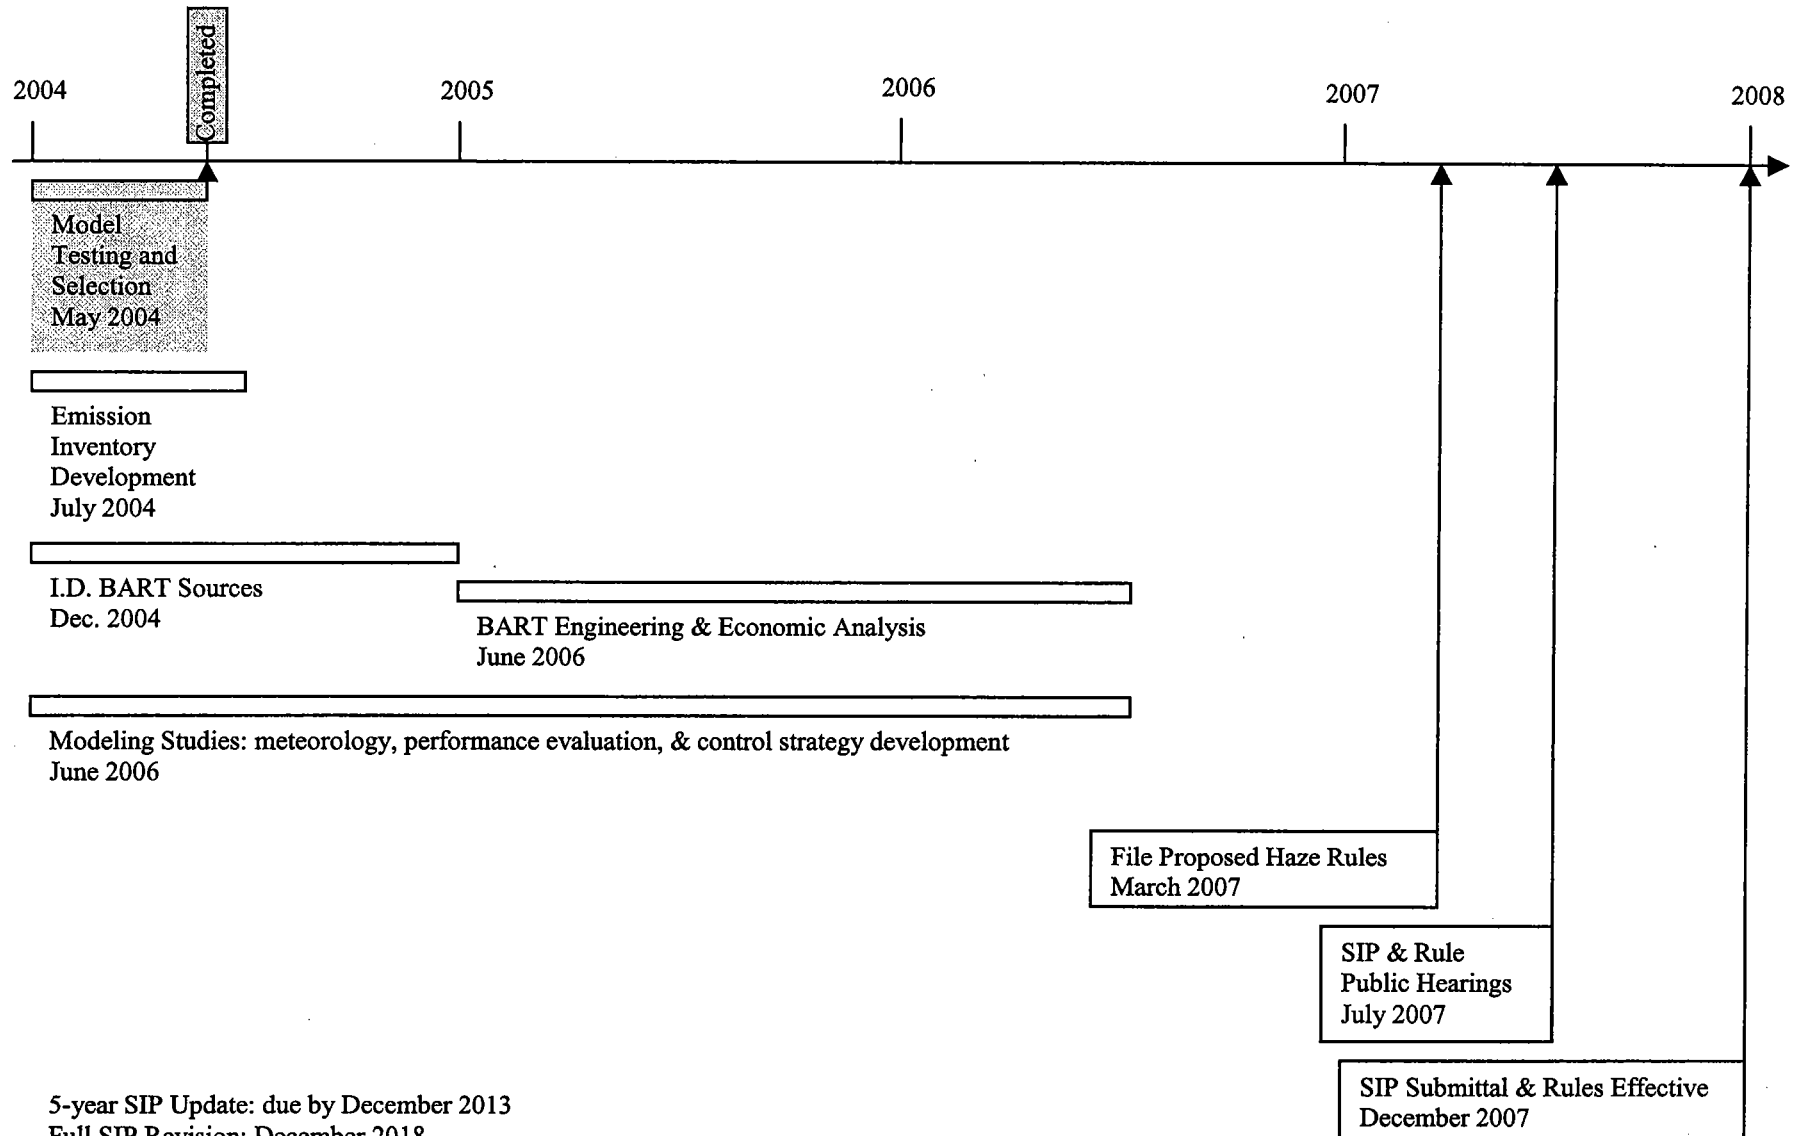

Plan Commitment	Plan Submitted to EPA *	EPA's Plan Completion Finding *	EPA's Plan Approval Finding *	Sanction Clock Date **		Sanctions				Comments
						EPA Impose 2:1 Emissions Offset Ratio (18 mos after clock start)		EPA Withholds Highway Funds (24 mos after clock start)		
				Start	Stop	Start	Stop	Start	Stop	
111(d) Plan-Municipal Solid Waste Landfills	1/26/98		4/24/98 - EPA granted direct final approval-effective 6/23/98							Original Plan
	8/31/00	Complete-9/21/00	11/15/00 - EPA granted direct final approval-effective 1/16/01							Plan being revised to reflect recent EPA Emission Guidelines revisions. Public hearing for plan revision 6/29/00. MACC adopted 7/27/00.
111(d) Plan-Hospital, Medical/Infectious Waste Incinerators	6/15/99		8/19/99 - EPA granted direct final approval-effective 10/18/99							Original Plan
	7/13/01		10/12/01 - EPA granted direct final approval-effective 12/11/01							Plan being revised to assure consistency with federal definitions. Public hearing for plan revision 2/6/01. MACC adopted 3/29/01.
Missouri SIP (Regional Haze Plan)										Final federal regional haze rule published 7/1/99 and Plan schedule is dependent on new NAAQS issues. Tasks completed: previous years grant applications (EPA approved), RPB structure/budget, by-laws, articles of incorporation, individual workgroup plans, guidelines for workgroup chairs, and FY2003 grant application. On 12/12/01, EPA released draft guidance to implement regional haze rule published 7/1/99. On 5/24/02, the D.C. Circuit Court of Appeals ruled on a case challenging specific BART requirements and will affect the way BART will be applied. Leanne Tippet appointed to Policy Oversight Group. Attended CENRAP workgroup meeting 8/11-8/13/03 in Minneapolis, MN. For individual workgroup progress, see www.cenrap.org . See Attachment A for schedule timeline.

Note: Shaded blocks indicate changes or additions from the previous report.

- * Failure to meet any of these dates or plan requirements, starts the 18 month sanction clock.
If requirement is not met within 18 months, the 2:1 emissions offset ratio sanction is imposed.
If requirement is still not met within 24 months, the sanction that withholds highway funds is imposed.

- ** Sanction clock starts with 1) EPA letter to Governor for failure to submit or finding of incompleteness; or 2) EPA Federal Register final notice of plan disapproval or nonimplementation.
Sanction clock stops with EPA letter to department director of finding of completeness.

Attachment A State Air Quality Status Report Regional Haze SIP Timeline

Inspections by Station from May 1 through May 31

MEMORANDUM

DATE:

TO: Missouri Air Conservation Commission

THROUGH: James D. Werner, Director
Air and Land Protection Division

FROM: Leanne J. Tippet, Director
Air Pollution Control Program

SUBJECT: Attorney General's Office Referral Request – Palleton of Kansas Mill, Inc.

On February 4, 2002, the department issued Notice of Violation (NOV) #3772 to Palleton of Kansas Mill (Palleton), Exeter, Barry County, Missouri for open burning of trade waste consisting of sawdust, slab ends, and wood pieces. On September 11, 2002, Palleton entered into a settlement agreement that established a \$1,500 suspended penalty pending no further violations for two years.

On May 28, 2003, the Southwest Regional Office received a complaint regarding open burning at Palleton. The Southwest Regional Office investigated the complaint and issued NOV #4219 for the open burning of two large piles of wood wastes and sawdust. The piles ignited on or about May 20, 2003. At the time of the investigation on May 28, 2003, Palleton had made no attempt to extinguish the fire. The Air Pollution Control Program (APCP) requested the Attorney General's Office (AGO) collect the suspended penalty on July 8, 2003. On July 8, 2003, the APCP notified Palleton that NOV #4219 triggered the \$1,500 suspended penalty and requested Palleton provide a compliance plan.

On September 4, 2003, a representative of Missouri Department of Natural Resources' Southwest Regional Office contacted the APCP and stated that Palleton was again burning trade waste. The APCP informed the AGO that further action would be necessary.

On September 30, 2003, the Southwest Regional Office issued NOV #4260 to Palleton for burning large amounts of wood wastes on or about August 18, 2003. The Exeter Fire Department report estimated the fire destroyed approximately 1100-1500 bundles of wood scraps. On October 15, 2003, the APCP sent a \$10,000 settlement offer to Palleton to resolve the issue.

On October 22, 2003, the AGO contacted Mr. Michael Riehn, Attorney at Law for Palleton. The AGO demanded payment of the \$1,500 suspended penalty and stated the APCP wanted to negotiate a settlement on the \$10,000 demand. Palleton's attorney responded to the AGO on October 29, 2003, and stated they felt the incidents were arson and not open burning. On January 12, 2004, the AGO responded to Palleton and stated "we disagree and see liability under the open burning law."

Palleton responded on January 27, 2004, and stated they have done nothing to warrant further fines and do not believe they have violated the 2002 settlement agreement. On March 2, 2004, the AGO informed the APCP that a settlement seems "highly unlikely."

In light of the failure of the APCP and Palleton to come to an agreement, the APCP is requesting approval to refer this case to the AGO. I recommend approval of this action.

MEMORANDUM

DATE:

TO: Missouri Air Conservation Commission

THROUGH: James D. Werner, Director
Air and Land Protection Division

FROM: Leanne J. Tippet, Director
Air Pollution Control Program

SUBJECT: Attorney General's Office Referral Request – Gruenloh Excavating and First Bank, Gerald, Missouri

On December 6, 2002, a representative of the Missouri Department of Natural Resources' St. Louis Regional Office investigated a complaint regarding the open burning of demolition waste of the former building, owned by First Bank, located at 430 South Main in Gerald, Missouri. The investigation disclosed that First Bank allowed Gruenloh Excavating, the general contractor, to perform the burning of demolition debris at the site. Subsequently, the department determined the building being demolished had not been inspected for asbestos prior to the demolition and no notification of the demolition project was submitted to the department at least ten working days prior to commencing the demolition. The open burning of demolition waste is a violation of Missouri Conservation Commission regulations 10 CSR 10-5.070 "Open Burning Restrictions." Failing to inspect for asbestos and failing to submit a Demolition Notification are violations of Missouri State Rule 10 CSR 10-6.080, which adopts by reference 40 CFR Part 61, Subpart M - *National Emission Standard for Asbestos*. The Air Pollution Control Program (APCP) issued Notices of Violation numbers 23ANS3 and 53ANS2 to Gruenloh Excavating, on December 20, 2002, and June 4, 2003, respectively. The department issued Notices of Violation numbers 2628SL and 53ANS1 to First Bank, on December 20, 2002, and June 4, 2003, respectively as well.

On June 10, 2003, the APCP sent a \$6,000 settlement offer letter via certified mail to Gruenloh Excavating and First Bank. The APCP asked both parties to contact the department by June 25, 2003. On June 25 and 30, 2003, staff of the APCP called and left a message with the secretary of Gruenloh Excavating. First Bank, however, did respond and by June 30, 2003, and they had agreed to a \$6,000 penalty, where as First Bank will pay \$1,000 would be paid and the department will suspend the remaining \$5,000 for a two-year period.

On July 15, 2003, the department sent a second settlement offer letter informing Gruenloh Excavating they had missed the June 25, 2003, deadline. In this letter, the department gave a new deadline of July 25, 2003. By July 25, 2003, Gruenloh Excavating had not contacted the department.

On July 25, 2003, the APCP staff called Gruenloh Excavating and left a message with the secretary.

On July 28, 2003, Michael Mundwiller, the representative for Gruenloh Excavating, called and said he would talk with Doug Gruenloh, owner of Gruenloh Excavating, figure out a good time to meet, and call back by August 18, 2003.

By August 18, 2003, Mr. Mundwiller had not called. On August 27, September 4 and 5, 2003, staff of the APCP called Mr. Mundwiller and left messages informing him to contact the department.

On August 29, 2003, the Assistant Attorney General, Bob Cook, sent the formal settlement agreement to First Bank. Mr. Bob Zick, representative for First Bank, contacted Mr. Cook and stated they would like the settlement agreement changed. The APCP decided there is no reason to change the standard settlement agreement.

On September 8, 2003, Mr. Mundwiller called. He said Doug Gruenloh had agreed to pay \$1,000 and have \$5,000 suspended for two years.

On September 12, 2003, the APCP sent the settlement negotiation form via certified mail. Mr. Mundwiller received it on September 16, 2003.

On November 13, 2003, APCP staff called Mr. Mundwiller and left a message with the secretary to inform him the settlement negotiation form need to be signed.

On November 21, 2003, the APCP sent a letter to Mr. Mundwiller telling him to sign the form and return it to the department by December 3, 2003, or the APCP would start the referral process.

On December 9, 2003, after many phone conversations between First Bank and the Attorney General's Office (AGO), the AGO sent a letter to First Bank informing them the settlement agreement was a standard agreement and, therefore, would not be changed. He also asked them to sign the agreement as soon as possible.

On December 10, 2003, the APCP called Mr. Mundwiller and left a message informing him he had again, missed the deadline and the APCP will start the referral process.

On December 29, 2003, First Bank sent a letter stating they would not sign the agreement as written.

As of this date, Gruenloh Excavating has not signed the settlement negotiation form and has been uncooperative, as they have not responded to letters or telephone calls. First Bank was cooperative at first, yet have now refused to sign the formal settlement agreement. The APCP is requesting authorization to refer this matter to the AGO for appropriate legal action. I recommend your approval of this action.

LJT:anst

MEMORANDUM

DATE:

TO: Missouri Air Conservation Commission

THROUGH: James D. Werner, Director
Air and Land Protection Division

FROM: Leanne J. Tippet, Director
Air Pollution Control Program

SUBJECT: Attorney General's Office Referral Request – Alex Park Enterprises, Incorporated
(d.b.a. Black Tie Cleaners)

On September 25, and November 6, 2003, the St. Louis County- Department of Health requested Black Tie Cleaners, located at 7575 Page in St. Louis, St. Louis County, Missouri to submit a state operating permit application and filing fee.

On December 22, 2003, the St. Louis County- Department of Health issued Notice of Violation #076 to Black Tie Cleaners for failure to submit a state operating permit and filing fee.

Failure to submit a state operating permit is a violation of Missouri Air Conservation Regulation 10 CSR 10-6.065, “*Operating Permits.*” The St. Louis County- Department of Health referred this violation to the Air Pollution Control Program (APCP) for enforcement action as a result of Black Tie Cleaners failure to submit a state operating permit and filing fee.

On January 23, 2004, the APCP sent a settlement offer by certified mail to Black Tie Cleaners requesting a response by February 13, 2004. The certified mail receipt indicated Black Tie Cleaners received the letter on January 29, 2004. Black Tie Cleaners failed to respond to the letter.

On March 10, 2004, the APCP sent a follow-up letter to Black Tie Cleaners by certified mail requesting a response to the APCP’s settlement offer by no later than March 17, 2004. The certified mail receipt indicated Black Tie Cleaners received the letter on March 12, 2004. Black Tie Cleaners failed to respond to the letter.

On March 24, 2004, the APCP called Black Tie Cleaners and asked for Yong Park (registered agent of Black Tie Cleaners). The receptionist informed the APCP that Mr. Park was in a meeting and to call back after 11:00 a.m. The APCP called back at 1:10 p.m.. The receptionist indicated Mr. Park was not in the office. The APCP left a detailed message explaining that Black Tie Cleaners must submit a state operating permit and made a request that Mr. Park call back as soon as he returned to the office. The receptionist indicated she would have Mr. Park call.

To date, Black Tie Cleaners has failed to establish compliance and to reach an out-of-court settlement.

The APCP is requesting authorization to refer this matter to the AGO. It is the APCP's intention to combine our enforcement case with the enforcement case of the Hazardous Waste Program in order to pursue a single multimedia settlement. I recommend your approval of this action.

c: Mr. Charles Wildt, St. Louis County Department of Health

MEMORANDUM

DATE:

TO: Missouri Air Conservation Commission

THROUGH: James D. Werner, Director
Air and Land Protection Division

FROM: Leanne J. Tippet, Director
Air Pollution Control Program

SUBJECT: Attorney General's Office Referral Request – Royal Environmental

On April 16, 2003, a representative of the Missouri Department of Natural Resources' Air Pollution Control Program (APCP) observed a demolition project in progress at the intersection of Grant and 10th Street in Trenton, Missouri. The program had not received notice of this demolition project as required by state rule. Failure to provide notification to the department ten working days prior to the commencement of a regulated demolition project is a violation of 10 CSR 10-6.080, which adopts by reference 40 CFR Part 61, Subpart M- *National Emission Standard for Asbestos*. The department issued Notice of Violation #43DL3 for the violation on April 23, 2003.

On May 7, 2003, the APCP sent a certified letter to Mr. John Mindedahl of Royal Environmental requesting a settlement offer for \$2,000. A representative of Royal Environmental signed for the certified letter on May 22, 2003. In the letter, the program requested Mr. Mindedahl respond by May 30, 2003.

On June 11, 2003, the APCP tried to contact Mr. Mindedahl by telephone. Mr. Mindedahl contacted the APCP the following day and requested a settlement of \$1,000 with no suspended penalty. The APCP agreed to this and sent a settlement negotiation summary form by certified mail to Mr. Mindedahl on June 19, 2003.

The settlement negotiation summary form was returned as unclaimed to the APCP on July 21, 2003, with notice of a forwarding address on the envelope. Further correspondence was directed to the new address in St. Joseph, Missouri.

Missouri Air Conservation Commission
Page Two

On July 29, 2003, the settlement negotiation summary form was sent again to the new address via certified mail. Trista Mindedahl signed for it on August 11, 2003. The form was not returned to the APCP as requested.

On January 13, 2004, the APCP attempted to contact Mr. Mindedahl via telephone and left a message for him to contact the APCP. He did not return the call.

On February 11, 2004, the APCP attempted to contact Mr. Mindedahl via telephone and left a message for him to call the APCP. He did not return the call.

On March 23, 2004, the settlement negotiation summary form was sent again to the new address via certified mail. The form was not returned to the APCP.

As of this date, the APCP has not received any response from Mr. Mindedahl concerning the settlement negotiation.

The APCP is requesting authorization to refer this matter to the Attorney General's Office. I recommend your approval of this action.

c: Northeast Regional Office

MEMORANDUM

DATE:

TO: Missouri Air Conservation Commission

THROUGH: James D. Werner, Director
Air and Land Protection Division

FROM: Leanne J. Tippet, Director
Air Pollution Control Program

SUBJECT: Attorney General's Office Referral Request – William Swenson

On January 26, 2004, the Missouri Department of Natural Resources' St. Louis Regional Office received copies of fire reports from the Cedar Hill Fire Protection District. The fire reports contained information documenting illegal open burning activities at the property of Mr. William Swenson located at 5391 Scenic View Lane in House Springs, Jefferson County, Missouri. The reports described open burning violations on February 22, 2003, December 2, 2003, and January 12, 2004.

On January 26, 2004, the department's St. Louis Regional Office issued Notice of Violation #2054SL to Mr. Swenson for the open burning of trade waste and tires as a means of disposal. This is a violation of Missouri Air Conservation Regulation 10 CSR 10-5.070, "*Open Burning Restrictions.*"

On March 5, 2004, the Air Pollution Control Program (APCP) sent a settlement offer by certified mail to Mr. Swenson requesting a response by March 18, 2004. The U.S. Post Office returned the letter marked "unclaimed" on March 29, 2004.

On March 10, 2004, a representative of the department's St. Louis Regional Office hand delivered a copy of the Notice of Violation and the settlement offer letter to Mr. Swenson's home and left the letters under the kitchen door. Mr. Swenson failed to respond to the settlement offer letter.

On March 29, 2004, the APCP sent a follow up letter by regular mail to Mr. Swenson and requested a response before April 12, 2004. Mr. Swenson again failed to respond.

On April 20, 2004, the APCP attempted to contact Mr. Swenson by telephone. The telephone number contained in the Cedar Hill Fire Protection District fire reports was invalid. The APCP conducted several web searches for a telephone number for William and Michelle Swenson with no result. The APCP also conducted a business search to determine whether Mr. Swenson was a registered agent for a business located in Missouri. The APCP found no information linking Mr. Swenson to any businesses listed with the state of Missouri.

To date, Mr. Swenson has failed to respond to the APCP in order to discuss his violations and to reach an out-of-court settlement.

The APCP requests authorization to refer this matter to the AGO. I recommend your approval of this action.

c: Mr. Pat Dwyer, St. Louis Regional Office

2003 Missouri Air Quality

June 2, 2004

8-Hour Ozone

Monitoring data collected by the Department of Natural Resources indicates that St. Louis is in violation of the National Ambient Air Quality Standard (NAAQS) for 8-hour Ozone. The standard is .085 parts per million (ppm), calculated from averaging the fourth highest value from three consecutive years. In St. Louis, nine of the twelve Missouri sites are over the standard. The highest design value is at the Orchard Farm site .092 ppm. In Kansas City, the Liberty site initially reported a design value over the standard .085 ppm. However, one of the four highest values was due to an exceptional event in southeastern Kansas in April 2003. In December of 2003, Region VII approved flagging this value and it is no longer included in calculating attainment. Without that value, the Liberty site's design value fell to .084, which is under the standard. A second Kansas City area site, Rocky Creek, has monitored higher concentrations, but has been sampling less than three years. With high values the past two years, this site is in jeopardy of violating the 8-hour standard by the end of the 2004 ozone monitoring season. All other areas in the state are in compliance with the standard.

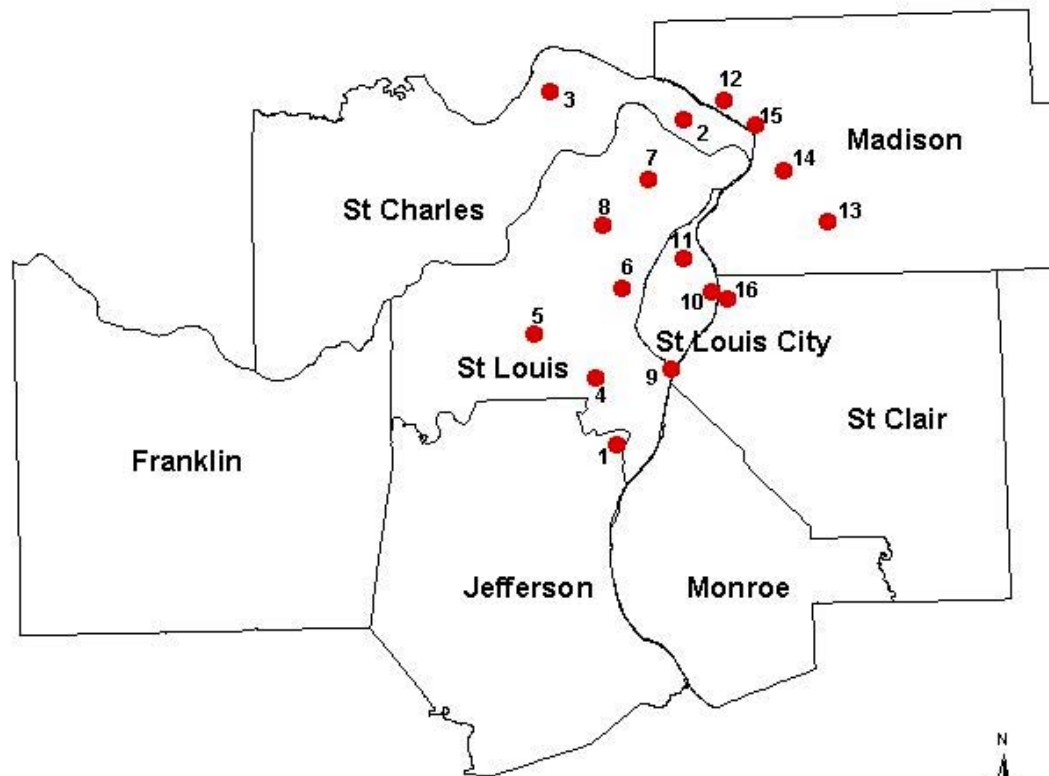

Fine Particulate Matter

Monitoring data collected by the Department and Illinois Environmental Protection Agency indicate that St. Louis is in violation of the annual NAAQS Fine Particulate Matter 2.5 (PM_{2.5}). The annual PM_{2.5} standard is 15.0 µg/m³, based on three year average of the annual mean concentration at each site. Annual concentrations in St. Louis have been steadily decreasing since the network was installed in 1999. The highest Missouri site, Blair Street, is now just under the standard at 14.9 µg/m³. There are two sites in East St. Louis that are still over the annual standard. The highest Kansas City site is the Locust/Troost site, with a design value of 13.8 µg/m³. The 24-hour NAAQS for PM_{2.5} is 65.0 µg/m³, based on a three year average of the 98th percentile of data. There have been infrequent exceedances of this standard in St. Louis and Kansas City, but not enough to constitute a violation at any one site. Controls at a charcoal kiln near Belle, Missouri, brought ambient PM_{2.5} levels into compliance.

Particulate Matter 10 (PM₁₀), Lead, SO₂, NO₂, & CO

Two sites in Missouri, North Market in St. Louis and Carthage, are in violation of the PM₁₀ 24-hour NAAQS of 150 µg/m³. Both sites have shown improvement in 2003, although the North Market site has had additional exceedances in 2004. The lead sites near Herculaneum have monitored quarterly levels below the NAAQS for seven of the past eight quarters. Compliance with the NAAQS for sulfur dioxide, nitrogen dioxide, and carbon monoxide was monitored throughout 2003.

Introduction

This presentation is intended to provide insight on when to expect upcoming projects.

What's Coming Over The Horizon?

Ozone Rules Nonroad Diesel Rule
Fine Particle Rules Mercury Rule
Interstate Air Quality Rule
Other Rules/Plans

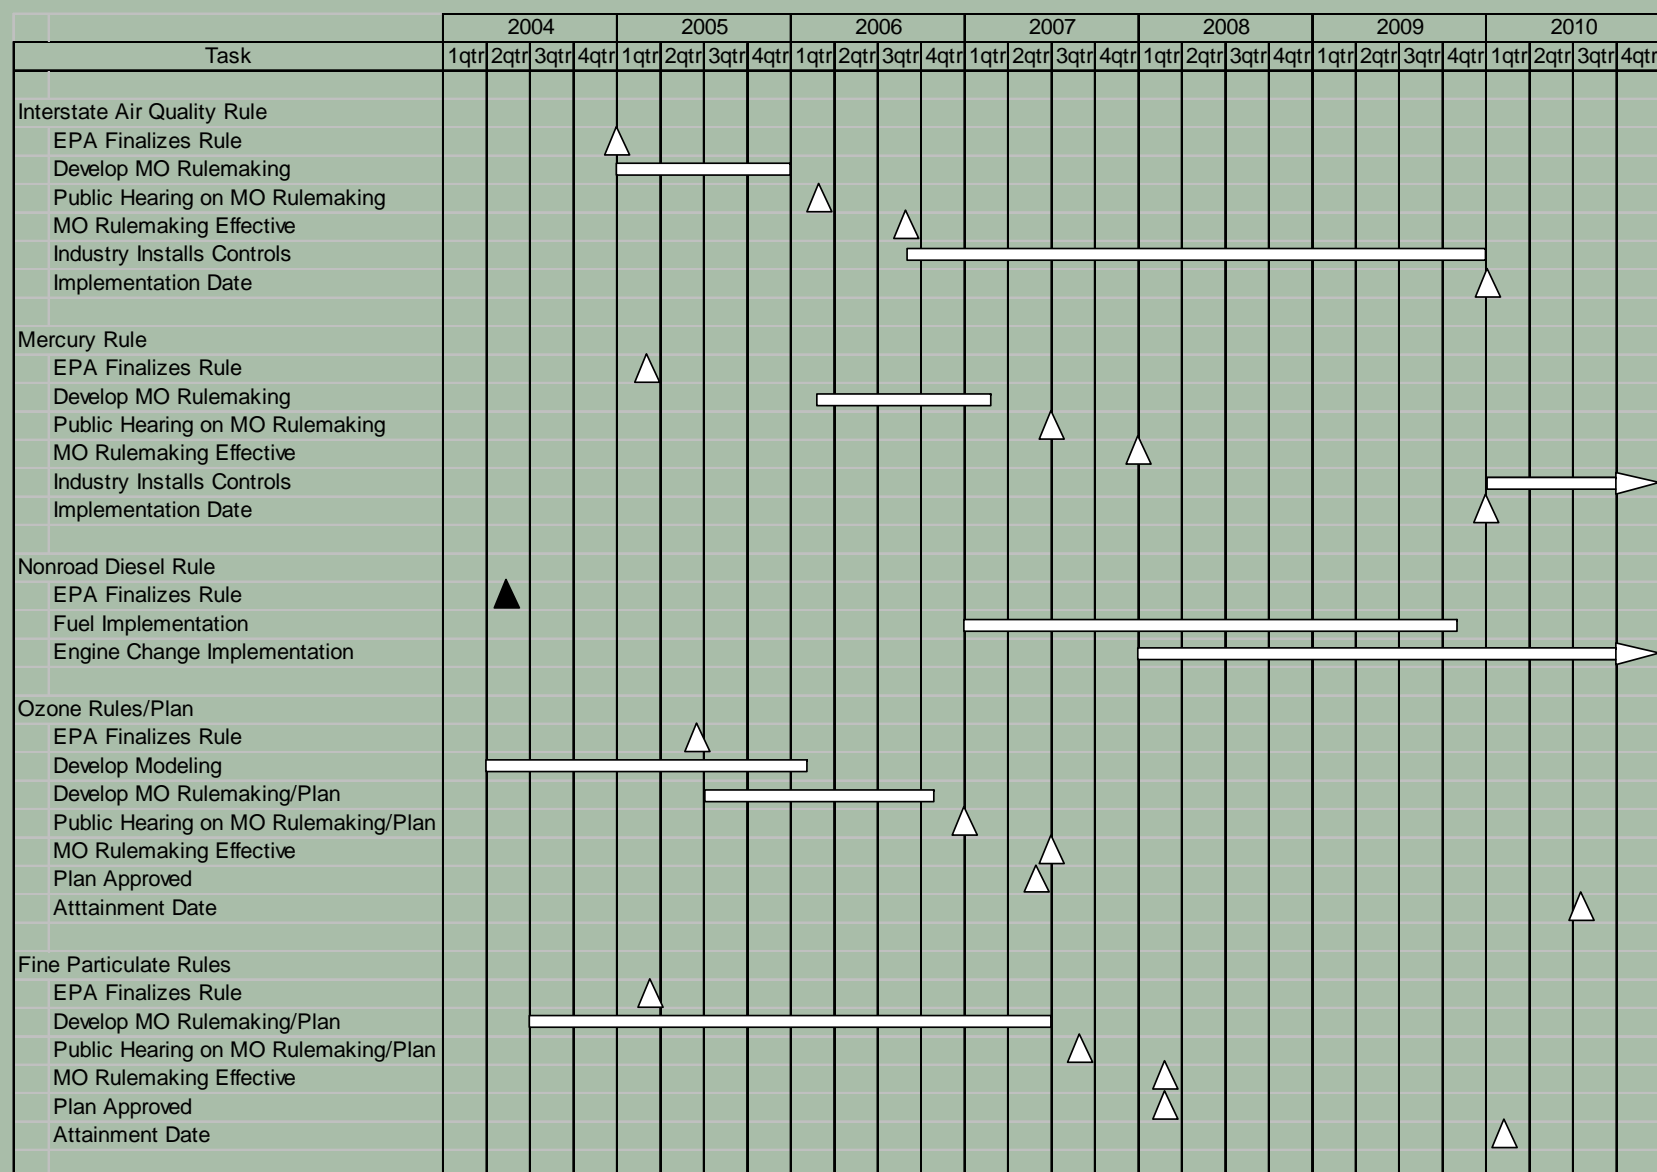

EPA Clean Air Rules Of 2004

- Interstate Air Quality Rule
- Mercury Rule
- Nonroad Diesel Rule
- Ozone Rules
- Fine Particle Rules

Other Rules/Plans

- NO_x SIP Call
- NSR Rules
- St. Louis Large NO_x Sources Rule
- Transportation Conformity Rules
- Smoke Management Plan

EPA Clean Air Rules Timeline

[illegible]

Expectations From These Actions

- Reduce Following Emissions
 - SO₂ and NO_x
 - Mercury
 - Nonroad Diesel Engine
 - 8 Hour Ozone
 - PM_{2.5}
- Regional Haze-Achieve Natural Backgrnd 2064
- Implement Smoke Management Plan

When Presented At Public Hearing?

- July 22, 2004
 - NSR Attainment Rules
- Early 2005
 - NO_x SIP Call
 - Transportation Conformity Rules
- Fall 2005
 - NSR Nonattainment Rules
 - St. Louis Large NO_x Sources Rule
 - Smoke Management Plan

When Presented At Public Hearing? (cont.)

- Early 2006
 - Interstate Air Quality Rule
- End Of 2006
 - 8 Hour Ozone Rules/SIP
- Summer 2007
 - Mercury Rule
- Fall/Winter 2007
 - PM_{2.5} Rules/SIP
 - Regional Haze Rules/SIP

Wrap Up
